SULPHUR SKYLINE TRAIL

One of the most credited and scenic day hikes in JASPER NATIONAL PARK.

This trip is laid out on a beautifully graded trail and offers panoramic views from Ashlar Ridge in the north to Mt. Utopia in the south.

From interesting geology to wildlife sightings, the trail ascends upward from Miette Sulphur Hot Springs on a well elevated grade.

Big Horn Sheep and Mule Deer can often be sighted and photographed.

Highlights include the largest white quartzite erratic in the Park.

On conclusion of this unique, rewarding trip, your climax will be a soak in Miette Hot Springs, the **hottest** hot springs in the mountain parks. A time to rest and relax those weary muscles in a therapeutic setting.

This 5 km or 3 mile trek to the summit is simply one of the best day hikes in JASPER NATIONAL PARK.

Allow 8-9 hours total time from pickup in JASPER, the hike, the Hot Soak and return ride back to JASPER.

Pool admission, lunch, transportation and professional interpretive guide are all included.
